Shaping Young Minds Program

Dear IMA Members,

"Youth is after all just a moment, but it is the moment the spark that you always carry in your heart" - Raisa M. Gorbachev.

Youth Development is a route which prepares young people to meet the challenges of adolescence and adulthood through a coordinated and innovative series of activities and experiences which help them to become socially, morally, emotionally, physically and cognitively competent.

Many young people today have bright minds, which need shaping up on what to expect in a progressive career – they are always seeking inspiration from icons. Who else could be better than Gautam Thapar, R.Gopalakrishnan and Khushboo Sundar to Shape Young Minds through narrations of their experiences in an anecdotal form with a view to conveying lessons from their lives.

I cordially invite you to be part of this grand event on Friday, September 9, 2011 at Dhirubhai Ambani Auditorium, Daly College, Indore at 10.00 am.

Regards,

Shamit Dave
President - IMA
